Born: 20. februar 1990

I am 29 years old and live in Ski (Norway). I talk and write fluent Norwegian and English.

I have worked my way up the grocery store industry and have operated a shop with a turnover of about NOK 60 million.

Now I am studying Front End development at Noroff Vocational School, The program is finished in the spring of 2020. I am a curious and teachable person, who is dedicated to doing well in my workplace.

I look at myself as an outgoing introvert who is sociable, while at the same time prefer to spend time in my own company.

Friends and colleagues describe me as faithful, honest, straightforward, effective and reliable. These are the qualities I bring with me into the workplace.
